### **Polaris reassessed at CMMI Level 5**

MUMBAI: IT firm Polaris Software Lab said on Tuesday that it has been reassessed at CMMI Level 5 (version 1.2) -- an international standard for evaluating and measuring maturity for software development.

The company informed the BSE that its Investment Banking and Capital Market Business solution centres as well as Business and Corporate Banking solution centres at Hyderabad, Chennai and Mumbai have been appraised using international structural design SC AMPI (Standard CMMI Appraisal Method for Process Improvement) methodology.

"This reassessment is very significant because SCAMPI version 1.2 is the latest and most stringent appraisal methodology," company's Vice President and Head for Corporate Quality Rama Sivaraman said. - PTI

### **Polaris Reassessed At CMMI Level 5**

**Polaris was the first company in the world to achieve CMMI Level 5 certification.**

Tuesday, March 06, 2007: Polaris Software Lab Ltd has been reassessed at CMMI Level 5 (version 1.2). The company's investment banking and capital markets business solution centre (BSC) in Hyderabad, Chennai and Mumbai; enterprise

business solution centre in Delhi; and corporate banking business solution centre in Mumbai, Hyderabad and Chennai have been appraised using SCAMPI V 1.2 methodology.

Speaking on the occasion, Rama Sivaraman, senior vice president and head, corporate quality, Polaris Software Lab, said, "Polaris was the first company in the world to achieve CMMI Level 5 certification. This reassessment is very significant because SCAMPI V 1.2 is the latest and most stringent appraisal methodology recently launched by SEI."

About 57 per cent of Polaris' employees have been covered through two distinct back-to-back and independent appraisals. Phase 1 of these appraisals, covering CMMI training, appraisal methodology training and review of work products of over 75 projects (45 per cent of all projects), was completed between 5 and 22 December, 2006.

Phase 2, called the 'on-site' period and comprising interviews of representatives of projects and functions, was completed between 22 January and 8 February, 2007.

Trimentus Technologies was the lead appraiser for these appraisals. The lead appraiser from Trimentus said, "The quality management system and processes at Polaris have been very well structured, articulated, defined and institutionalised across the organisation."
