

For Immediate Release

Polaris' Intellect™ Banking Product on HP Integrity Servers Provides Wider Platform Choice to Banks Worldwide

Chennai, February 15, 2007: Polaris Software lab limited (Mumbai: POLS.BO) today announced the availability of its Intellect™ banking product on HP Integrity servers. The porting initiative is part of the product roadmap for Intellect™ and will enable expansion of its product footprint into large banks in advanced as well as emerging markets for their mission-critical applications.

The Intellect Product suite is a comprehensive next-generation banking product from Polaris. Intellect Lending, one of the flagship products has been ported to the HP Integrity server platform. The Intellect Lending Product is rich in business functionality and provides competitive advantage to customer banks in the retail, corporate and private banking verticals.

Technology Highlights

1. Ability to work on a range of Integrity Server models (starting from entry class to enterprise class)
2. True 64-bit operating system implementation on Linux, HP-UX

Jaideep Billa, Chief Technology Officer, Polaris Software, said, “The availability of Intellect products on HP Integrity servers will enable rapid integration with customer environments.”

Michelle Weiss, vice president of marketing, Business Critical Systems, HP, said, “The porting of the Intellect-Lending Product Processor onto HP Integrity servers helps provide customers in all areas of the financial sector with a competitive advantage and ensure their IT infrastructure is highly available and easily scalable to accommodate changing business demands.”
